Helping People Understand and Use the Physical and Mental Health Care System

The health care system can be hard to use and understand. Our advocates can help you learn:

- What programs you are eligible for
- How and where to get services
- What to do if there is a problem

The Consumer Center Staff

We are ready to help! Our advocates have been trained in consumer rights. They know how to access information on the many physical and mental health programs available in San Diego County.

Our advocates speak English, Spanish, Vietnamese, Arabic and Tagalog. We use a translation service for other languages.

Other Ways We Can Help . . .

Our advocates can help you if you are:

- Told you do not qualify for services
- Denied or terminated from care or services
- Told your services will be changed
- Having problems paying for or getting medications
- Dissatisfied with the services or quality of the care you are getting.

Call us, so we can start trying to get your problem resolved quickly.
